Phaneuf Associates Incorporated, doing business as PAI Consulting (PAI), a 100-percent woman-owned small business, was founded in 1978 to provide aviation consulting services to the Government and industry. PAI offers a broad range of services in regulatory affairs, aviation consulting, flight operations, international and domestic meeting support, and government services — always maintaining quality results with exceptional client service.

PAI is a small business with the experience, ability, and resources of a large company. Our staff includes individuals with specialized backgrounds in civil and military aviation (including fixed-wing aircraft and rotorcraft), flight operations, aviation maintenance, management, economics, political science, and law.

PAI offers the following services to Government and industry:

- Regulatory analysis, development, and evaluation
- Economic and other executive order analyses
- Summary and analysis of public comments
- Meeting and event planning and facilitation
- Special studies and projects
- Technical writing, editing, and production services
- Support for petitions for exemption and rulemaking (waivers)
- Program development and support
- Manual and procedures handbook preparation
- Training program development and instruction
- Operational safety and maintenance evaluations
- IS-BAO certification audits
- Safety Management Systems (SMS) training and implementation
- Compliance reviews
- Minimum equipment list (MEL) services
- Repair station support
